## *So what is Cloud Computing?*

---

*For BMH, it is really taking the complexity out of ICT, enabling our customers to focus on what they do best, run their business, not try and figure out disaster recoveries, fail-overs, server replacement strategies, which servers must be configured how for which type of application , ...*

*Our platform – the Internet*

## Cloud Computing comes into focus only when you think about what IT always needs:

---

A WAY TO INCREASE CAPACITY or ADD CAPIBILITIES on the FLY  
Without investing in new infrastructure, training new staff or licensing new software

**We offer the full range of Cloud Solutions, starting from very simple solutions where we build cloud servers from specifications to full service based solutions where clients utilize services like document management.**

The following a few highlight of our “cloud” services:

---

### **Sage Accpac (ERP solution) as a Service**

- Ideal for:
  - Growing companies as users can be added/removed from month to month
  - Users at multiple locations
  - Reducing support costs
  - Reducing Total Cost of Ownership

### **BMH Document Management as a Service**

- Ideal for:
  - Centralizing document generation, scanning, storing and retrieval
  - Companies with limited storage (data) on site

### **BMH Master Scheduler / Monitoring as a Service**

- Ideal for:
  - Managing complex scheduling tasks across multiple servers / locations

### **Utility Services:**

- Mail & SMS Service
- Security Service
- Web Service
- Database Service
- Backup Service

Flexibility, Scalability and Simplifying ICT as a Utility Service
